The Service: What we do

Using our proprietary digital tools, we...

Assist vessels in preparing for inspections.

Reduce deficiencies and stop detentions.

Target the human aspects.

With attitude development tools.

Enhance Competency Management

Help mariners develop their on-job skills

The Method: How we do it...

Here are some of the unconventional tools we use...

Short bite-size videos

First of its kind, 3 to 5 minute videos packed with info.

Simulation Games.

Guided self-audit & feedback.

Involving several Gamification Techniques.

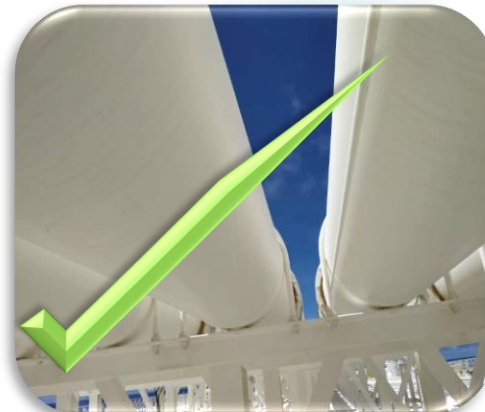

...instead of conventional checklists.

Various types of Inspections

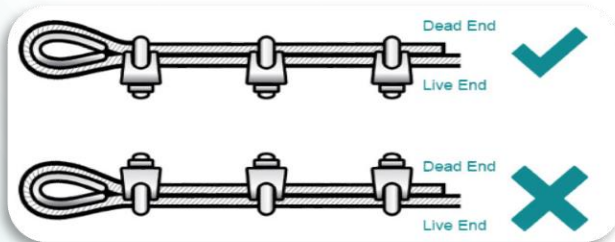

**Whether it is a Port State Control (USCG, AMSA, Chinese PSC, etc.),
Annuals, Rightship, Vetting, P&I, Flag State Inspections, etc.**

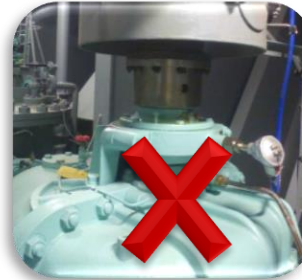

Our digital tools would keep your vessel compliant for any inspection, simply by empowering the seafarers in a unique way.

We don't just
say,
we show!

Showing the
Wrong the show
the *Right*.

Just a few examples...

Freefall Lifeboat: An example video

A modern audio-visual checklist

An example Game

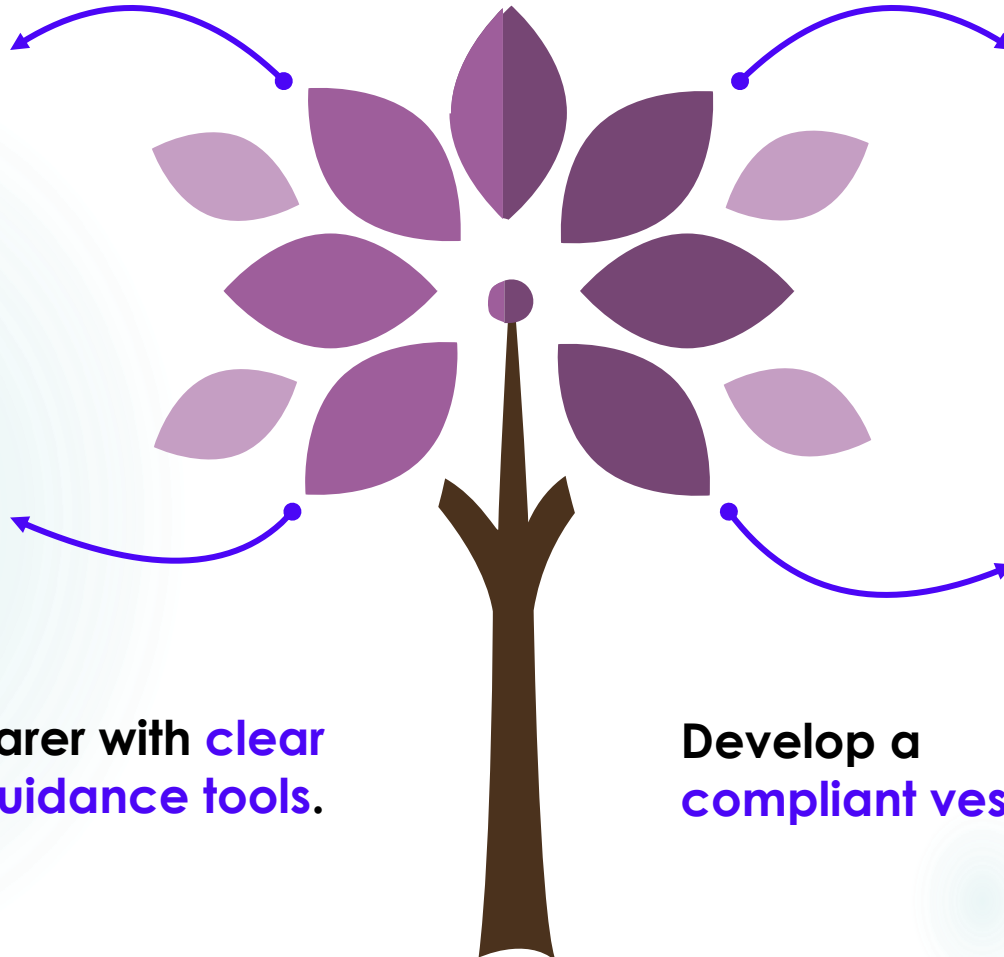

Receiving an Inspector at the Gangway.

The Vision: Why we do it...

To focus on maritime **skill-development**, instead of **knowledge transfer**.

Generate interest and engagement in the young seafarer.

Empower the seafarer with **clear** and **precise guidance tools**.

Develop a **compliant vessel**.

Our team and our work

Owner of Navguide Solutions LLP, Creator of Guide2Inspections™, a proprietary process of Ship-inspections. Creator of *Maritime Skill Enhancer*. VLCC Master, Author, blogger, Member of The Nautical Institute and Company of Master Mariners, SIRE & PSC Trainer.

*Navguide Solutions LLP is a company conceptualized and created by Co-founders **Captain Debashis Basu** and **Dr. Ishani Mitra** in 2019. It is based in India.*

*The first digital product we had was **Guide2Inspections™**, a proprietary ship inspection tool, now being used in several companies around the world. In January 2021, we launched the **Maritime Skill Enhancer**, a dedicated L.M.S. for shipboard skills.*

At present we have a team of Master Mariners, Auditors and Industry experts working with us as consultants.
